

GDA  
Am Bonneshof 5  
40474 DÜSSELDORF  
GERMANY

**Registration Form**

Consecutive No.:  
(in case for several castings)

---

**Description of the die casting and its application in terms of construction, casting technology and design.  
Also include details if it is to be used within an assembly  
(finished part attached yes/no)**

---

**Requirements in terms of construction, casting technology and design:**

**Names of the responsible co-operators**

a) Constructor:

b) Die caster:

---

**Why was aluminium chosen as the material for the die casting?**

(e. g. saving in cost compared with alternative material and manufacturing process, less assembly, reduced mechanical processing, more simple surface treatment, special construction characteristics; in case of substitution indication of the previous construction)
